

CNT200

In Situ Hybridization

Easy to Operate

- Full Touch Screen
- Friendly Human-Computer Interface
- Support Denaturation, Hybridization and Multi-Point Control Mode
- Support 120 User-Defined Procedures

Precise Control

- High Precise Temperature and Humidity Control Technology
- Temperature and humidity are not affected by the number of slides
- Real-time display of the experiment process
- Fast and accurate heating and cooling

Temp Control:	Room +5°C ~ 99°C
Temp Setting Range:	35°C ~ 99°C
Processing Time Range:	1min ~ 99h 59min
Temp Control Accuracy:	≤ ±1°C
Temp Uniformity:	≤ ±1°C
Heating Time:	≤ 2 min
Cooling Time:	≤ 6 min
Maximum Sample:	12 pieces
Dimensions:	480 x 245 x 145mm
Weight:	7 Kg
Ambient Temp:	5°C ~ 35°C
Ambient Humidity:	20%~80%
Power:	AC220V/50Hz or AC110V/60Hz
